The City Council has recently passed very wise ordinance regulating the laying of sidewalks in and about town. The conditions of the sidewalks in Lancester is a disgrace to any towr. On many of the prominent streets planks have been put down as a make-shift for a brick walk. In a short time

the people better walks as well as improve the looks of the otherwise pretty streets. There is no disposition to burden anyone with unnecessary exense but we must have side cheaper to put down a lasting walk of stone curbing and brick filling rather than a cheap, unsatisfactory wooden affair always out of repair. Of course there are those who oppose this upon the grounds of expense. Property owners who oppose good walks should pause to think that a good walk in front of their places adds just so much to the looks and value. They should consider the fact that no property is maintained without expense; that if neglected and permitted to fall into

decay it looses proportionality in value. Another important fact should not be lost sight of: On many streets some have plank walks or none at all, while others have good brick walks for all to walk on and enjoy. Is it altogether fair that this should be permitted? If your neighbor supplies you with a good, safe pavement to walk on should you not do likewise? The sidewalk question is not open to argument; we only print this article to point out the necessity of having them. We are reliably informed that it is the intention to enforce this ordinance to the letter, peaceably and pleasantly if possible, through the courts if necessary, treating all alike. From time to time it ted States in a few days, but don't shall be cur pleasure to note the prog-

FRIDAY. August, 5, - 1898

Unless all signs fail, the war with Spain will soon be a thing of the past. That government has asked Mr. Mc-Kinley what terms he will accept and the latter has replied promptly. We learn today that Spain has sent her acceptance back and it is in the hands of the Washington authorities. The only trouble now likely to arise is over the disposition of the Philippine Islands. Mr. McKinley is a strong peace man, and, if let alone, will quick'y make some concessions to Spain to end hostilities, but the danger is from the politicians making a cat's paw of the president, and making him do some fool thing which will bring about complications which may involve us with other nations. Mr. McKinley has to San Juan, though the general adshown his disposition to be led by the vance will probably not begin in earnnose on one or two occasions, and, as est until the remainder of the army stated above, the only fear now is arrives. from that source. I let alone we are satisfied he would tell Spain right now to take the Philippines, leaving us a coaling station, and go and sin no is willing to give up Porto Rico, give safe for them to leave Santiago. the Cubans their freedom, go home and stay there. It looks like this is enough for the United States to ask. but many two-by-four politicians are sending up a howl for more, and there is yet no telling what the outcome

Among the latest reports is one to the effect that General Fitzhugh Lee will be sent in command of fifty thousand troops to garrison the towns of Cuba in case Spain accepts our peace terms. The administration certainly ought to recognize Gen. Lee, and it would be difficult to find an honor too great for him. He is a man of sense and bravery, and his excellent services as Minister to Cubs, and in other ca pacities ought to be recognized. What he has done has been from a sense of duty and not for the selfish purpose of getting his name before the people, as has been the case with nearly every other volunteer.

A SCRAMBLE is being made by some of the chronic office-seekers for the position of commissioner to the Paris exposition. The usual list of name shoved into print are appearing. It would be an exceedingly great surprise and relief to the people if it would 'come in style' to appoint mento such positions who have stood back on their dignity and not bored the life the Union. cut of the public by having their names stuck up as 'probably accepting" places. The political hot bed in Kentucky needs weeding badly. Some of the old sun-flowers in both parties have stood until they are pet-

AFTER much delay, Col. Dave Colson's regiment of Kentucky volunteers has been mustered into the service of the United States. The gallant Dave has a lot of men who are far from the feather bed type, and ones who know nothing else but fightstate where children are born with a Winchester rifle in their hand, and shooting to kill comes as natural with them as it is for a dude to suck a walking cane. They are not a eerd of the whole gol darn Spanish army.

THE treatment received by Mike Salter at the hands of Castleman's nurse ry, is a disgrace to civilization. It was necessary to have charges before they could get Mike out, and the probabilities are that many a Legion man tossed upon his feather bed worrying over what to trump up against him. These fellows may have it in for the Lancas ter man just at present, but there will come a time when the fiddler will have to be paid, and it will not be Mike's money with which the violinist is compensated.

He got as most of it came from the veins of his own men, who, from lack of experience rushed into a trap, the honor will not be as great as the daring warrior hoped for.

THE administration is entitled to much credit for continuing the fighting while the Dons are parleying for peace. We sincerely hope that an un-derstanding will be reached, but our candid opinion is the Spaniards will never come to our terms until a sound whipping has been administered. In other words, as long as they have anything to fight with they will not quit.

THE Courier-Journal asked for exons of opinions from a number of United States Senators as to the terms on which the United States should consent to end the war with Spain. Most of them favor a demand for territory in the Philipines, several of them, including Foraker, Chandler and Allen, favoring the retention of the entire group.

THE souvenir edition of the Rich mond Climax was excellent in every sense of the word. It reflects much credit upon the clever editors and printers Richmond has as fine a lot of ewspapers as any town in the state.

# The War.

Madrid papers are indignant becaus the United States did not stop hostillities as soon as Spain proposed peace

negotiations. Madrid dispathes of London papers indicate that the Spanish people are indifferent to the terms so long as Spain is allowed to have the Phillippines and is not compelled to pay an indemnity.

A Washington dispatch says that toth houses of Congress will be called in extra session as soon as Spain indicates its acceptance of the terms of peace.

Covers were laid for 500 guests and that prince of hosts fairly surpassed himself in the preparation of the menu for the occasion. On Thursday evening is the Governor's Ball and the pected to be in attendance, also Gov. Bradley and staff. There will be sev eral germans during the meeting, and dancing will be indulged in every night. Many packs of fox hounds will be there and those who wish may indulge in this sport to their heart's content. One night during the re-union there will be given what Gen. Gentry designates a 'Ghost Fox Chase;" this consists of the dragging through the Springs grounds and the corridor of the hotel, the skin of a freshly killed fox, and at midnight several packs of twenty or thirty hounds each, will be placed on the trail, and the sleeping guests will be aroused from their slumber by the, to many of them fa miliar, sound of the dogs in full chase The date of the novel proceeding will not be divulged as it is to be a sur-

### Oh, the Pain of premium Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, be-cause it is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflamm

worse, the disease sn over my entire body, and

over my entire body, and from November to March I suffered agony. I tried many patent medicines, but none relieved me. Upon the a dvice of a friend I decided to try ever, my guardian, who was a chemist, analyzed the remedy, and pronounced it free of potash or mercury. I felt so much better after taking two bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent, for I have never since had a touch of Rheumatism though many times exposed to damp and cold weather.

Proper cultivation of the growing Burley crop is bound to yield the grower large returns. A fixed purpose to raise good, serviceable tobacco should be the definite aim of every tobacco grower during the season of 1898. No farmer can ever afford to let a tobacco crop take care for itself. Put the principle of "quality, not quantity" into practice this season and you will have no cause for after regrets.

Our Cavalry Is the Finest in the World

An American citizen thinks the American soldier is the best, for the easy reason that he is an American but there were three Englishmen whose profession had qualified them to know soldiers of every land, and who were quite as enthusastic over the cavalry as any American could be as is Fraederic Remington, for instance. for one thing, all of our men are physically as large as Life Guardsman, and what they lose in contrast by lack of gold and pipe-clay, and through the inferiority of their equipment and uniform, is made up to them in the way they ride a horse. A German or English trooper sits his horse like a clothes-pin stuck on a line—the line may rise or sag, or swing in the wind, but the clothes-pin maintains its equilibrium at any cost, and is straight, unbending, and a thing to itself. The American trooper, with his deep saddle and long stirrup, swings with the horse, as a ship rides at anchor on the waves; he makes a line of grace and strength and suppleness from the rake horse, as a ship rides at anchor on the strength and suppleness from the rake of his sombrero to the toe of his hood-A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four, bottles on the market, and the cost was \$100 per bottle, she would have them. boy, or a cockswain in a racingshell.— From "The Rocking-Chair Period of the War," by RICHARD HARDING DAVIS, in the August (F.ction Number) Scrib-
